Objective

Motivated BCA graduate with strong fundamentals in HTML, CSS, JavaScript, and API integration with API testing using Postman. Seeking an entry-level opportunity to work on real-world projects, enhance my skills, and contribute to a growing development team.

Technical Skills

Frontend Development

- HTML5, CSS3, JavaScript, Es6, Bootstrap, React
- Responsive Design (Flexbox, Grid, Media Queries) , PSD to HTML
- Mobile-first UI Design
- Wix Website Builder

API & Testing

- REST API Testing using Postman
- GET, POST, PUT, DELETE requests, Status Code Validation
- Positive & Negative API Testing
- Manual Testing, UI Testing, Functional Testing

Tools & Version Control

- Git & GitHub
- Postman (Basic)

Projects

Weather API Web Application

Built a responsive weather app using HTML, CSS, and JavaScript that fetch real-time data from the OpenWeather API. The app displays temperature and weather conditions based on input.

[Live Demo](#)

Web-Crafter – Frontend UI Project

Developed a responsive website using HTML, CSS, and Bootstrap with a focus on clean layout, reusable components, and mobile-friendly design using media queries and Flexbox.

[Live Demo](#)

Animal Medicare Website

Created a static responsive website for an animal healthcare service using HTML and CSS, implementing Flexbox and media queries to ensure proper layout and usability across devices.

[Live Demo](#)

Coffee Website (UI Project)

A simple coffee shop website using HTML and CSS, focusing on clean UI, spacing, and responsive layout to improve design and frontend fundamentals.
